I'm a Wella Educator and social media fanatic, you can find me hanging out with the #WellaPassionistas at hair events around the world.

My absolute favorite thing to do is pre-lightening the hair and creative colouring. I love that the Color Fresh Mask can extend the colour treatments I give to my clients so they can get that freshly coloured look and feel between salon visits.

HERE ARE SOME TIPS I'D LOVE TO SHARE WITH YOU

DID YOU *know?*

- Damaged & well-conditioned hair have different behaviors! The more damaged and sensitised the hair, the heavier the tone. Natural and well-conditioned hair will absorb less colour and results will be softer.
- Towel dry the hair after shampooing to reduce excess moisture and allow full penetration of the colour mask.
- Avoid using light coloured towels (or your favorite towels) as masks may stain!

WHAT MAKES COLOR FRESH MASKS

so unique?

The new Color Fresh Mask is formulated with Wella Professionals carefully selected dyes for professional results and care ingredients that leave the hair feeling healthy. And all this with zero damage to the hair! Color Fresh Masks not only refresh the professional colour service but also reduce hair breakage during combing.

damage
prevention

A smoother cuticle enables the comb to glide through the hair reducing stress resulting in less tangles and increased manageability.

colour
deposit

The direct acting dyes gently attach to the outer layer of the hair. Depending on the hair structure and porosity, the intensity of the colour result is varying.

Rich care ingredients give your hair visible shine and leave your hair feeling fantastic.
