An allergy alert test must be done 48 hours before each application of this colorant, as an allergy can develop suddenly, even if you have previously applied this product or another colorant on your client. Important: Hair colorants can cause severe allergic reactions. For you and your client.

HOW TO PERFORM THE ALLERGY TEST ALERT:

Remove earrings. Behind the ear and using a cotton bud apply a little of the SHADES EQ colorant sufficient to cover an area of 1 to 2 cm² (e.g. the size of a small coin). Re-apply allowing it to dry between applications. Carefully reseal the colorant container.

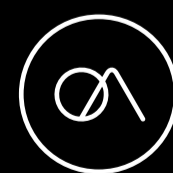

Leave for 48 hours without washing, covering or touching. If during this period you or your client notice any abnormal reactions, such as itching, redness or swelling in or around the test area, DO NOT APPLY THE PRODUCT.
